JOHN ANDREI CARLUM

IT Specialist & Developer

San Mateo, Rizal | 0919-757-6108 | jandreicarlum@gmail.com

PROFESSIONAL SUMMARY

Results-driven Information Technology graduate with hands-on experience in data management, software troubleshooting, and web development. Proven track record of leading encoding teams, digitizing large volumes of records with high accuracy, and building functional internal systems and responsive web platforms.

SKILLS

- **Technical:** Microsoft Office Suite (Word, Excel, PowerPoint), Database Management (SQL, Encoding), Troubleshooting & IT Support, Android & Web Development
- **Professional:** Problem-Solving & Critical Thinking, Teamwork & Collaboration, Adaptability & Fast Learning, Data Entry & Document Handling

WORK EXPERIENCE

Data Encoder & Team Lead (Project-Based)
Lancaster Technology and Development Corporation | Mar 2026 - Sept 2026

- Led a data encoding team and served as the primary liaison with the Registrar's Office to coordinate, verify, and streamline student record handling.
- Oversaw and executed the precise digital migration of 30,000+ hard-copy student files into a centralized database system.
- Conducted systematic quality assurance audits to identify discrepancies, correct errors, and maintain database integrity.
- Developed daily progress reports and built a tracking dashboard to monitor and visualize real-time encoding outputs.
- Enforced strict data protection protocols and confidentiality standards across all file management operations.

Programmer / Web Developer (Project-Based)
Autocontrol Engineering Services | Dec 2025 - Mar 2026

- Independently managed and optimized the Apimetals company website, improving page layouts, mobile responsiveness, content updates, and custom digital graphic assets.
- Resolved site vulnerabilities and security incidents by troubleshooting technical errors, restoring system backups, and purging malicious files.
- Authored a complete website design proposal for API China, restructuring product catalogs and drafting user-centric webpage layouts to enhance overall site navigation.
- Designed and built a functional prototype for an internal Calibration System, developing core modules for customer management (with multi-address support), employee records, and instrument tracking.

Front-End Developer (OJT)
Lamina Studios LLC | Jun 2024 - Oct 2024

- Assigned as a Frontend Developer to build the user interface of a comprehensive trucking web application.
- Implemented mobile-responsive and desktop-friendly layouts based meticulously on wireframes and specifications provided by the UI/UX design team.
- Utilized React and Tailwind CSS to craft clean, reusable components and dynamic pages.
- Collaborated seamlessly with team members using GitHub for version control, code reviews, and branch management.

EDUCATION

Bachelor of Science in Information Technology (BSIT)
Polytechnic University of the Philippines - Sta. Mesa
2019 - 2025

Science, Technology, Engineering, Mathematics (STEM)
Marikina Polytechnic College
2017 - 2019
